

THE COW (Bos Taurus).

The Cow is the name given to the female of the Ox, the male is called the Bull, and the young the Calf. It is difficult to realise what we should do without these very useful animals. From the Cow we obtain milk, which also provides us with butter and cheese. From the Ox we get beef, while its skin forms strong and durable leather. The Calf gives us veal, also from its hide are made the best boots and shoes. From the horns of the Ox knife handles are manufactured, and its hoofs are made into glue.
